Gresley 61'6" Corridor Coaches
In BR Crimson & Cream Livery

By Justin Waite

******NOTE: PLEASE DELETE ALL PREVIOUS
VERSIONS. THIS IS A MASSIVE UPDATE
WHICH RESULTS IN MANY FILES BEING
CHANGED.******

To delete the previous version:

- 1) Go to your MSTs Trainset Directory
(usually c:\Program Files\Microsoft Games\train simulator\trains\trainset)
- 2) Search for the folder: Gresley_Coaches_B&C
- 3) Delete this folder.

This update is a direct replacement which renders a lot of the old files pointless. However none of your consists/activities need to be changed due to the 'wag' files being named the same.

Thank you for downloading this coach pack.

This pack is updated to V2.

It changes the coach textures to match the other coaches that have been released by me.
All shapes have had work done to them to improve the overall appearance of these coaches.
Whilst no 'wag' file names have been changed the coaches have now been re-'named' in these files.
All consist/activities that you have made will not need changing.
The SD files have also been updated to make sure that they work correctly.
I have included 1 new coach: the Restaurant Kitchen First.

Previous versions:

Gresley 61'6" Coach roof patch v1:

Removed drain pipes from the ends of the coaches

V1.1:

This pack had corrected chain couplers and a few file fixes.

V1:

Original release with automatic buckeye couplers.
These coaches can be found in your trainset folder under Gresley_Coaches_B&C.

You need to use MSTs's activity editor or another program to make consists as no consists have been provided.

This pack contains the following coaches:

These coaches are not 100% accurate. They are a representation of the real thing.
The coaches in this pack are based of the Hornby OO scale coaches,
reference photo's on the internet, and diagrams from the following books:
"Historic Carriage Drawings Vol1: LNER and Constituents" by Nick Campling
"LNER Carriages" by Michael Harris
"Gresley's Coaches" By Michael Harris

A big thank you to all in the MSTS community who's hard work and
dedication provided me with the inspiration to have a go at these coaches.

All 3d models by Justin Waite.
